Mechanism of Internal Evaluation (2021-22)

- College makes sure that internal assessment is transparent and robust in terms of frequency and variety. College has its own standard procedure to carry out internal assessment. Calendar for 'Continuous Internal Evaluation' is prepared and implemented rigorously.
- Physical Director of the college arranges Physical Education examination for the first year students of all faculties in which the external examiner assesses physical exercise performance of the students. Self Study papers such as 'Democracy, Elections and Good Governance', 'Personality Development', are offered to the first year students whereas for third year students, paper like Soft Skills is there. Question papers of these subjects are set and assessed at institutional level and obtained marks are forwarded to the university. Hence, the examination is held very transparently.
- The second year students of all faculties undertake field projects for Environmental studies. These projects are assessed very objectively by the college teacher and the obtained marks for the field projects are forwarded to university for declaring results. This is also a part of internal assessment.
- At the same time, the third year students from Arts, Commerce make a seminar presentation and submit their project reports for the internal assessment. The third year students of all faculties are objectively assessed on the basis of their performances in the seminars and the quality of their project reports. All in all, the college maintains transparency and robustness in its internal assessment.
